

# **ER12-2100**

**ER12-2100,**  
**Maximum payload 12 kg with maximum reach 2051 mm.**

## ■ Highlights

Thanks to the optimization of stiffness and inertia brought by the new mechanical design, with advanced trajectory algorithm. The takt improved by 20%-30%; Compact cabinet design helps customers deploy the production line with more flexibility;  
IP67 wrist, high protection grade, to overcome harsh environment.

## ■ Applications

It can be used in handling operations(strings layout), etc.

## ■ Industries

Suitable for logistic, beverage and other industries.
